HOW TO FILL IN THE APPLICATION

Your application should be as clear and precise as possible so the independent experts and the European Jury will be able to evaluate your efforts in the area of diversity and inclusion.

Make sure that you have **clearly presented** your **approach and strategy** with regards to diversity and inclusion and that you have detailed key **innovative activities** that led to your achievements in this field. Indicate the time frame of the activities: when they were launched, progress made in their implementation, and what the future developments will be. Keep in mind that the Award is for the range of activities being implemented by your local authority, not merely for a single activity.

Please focus on **specifics, facts and numbers**. Give **examples**, including **qualitative and quantitative information**.

The indicated maximum number of characters available for each answer includes spaces.

A/ LOCAL AUTHORITY IDENTITY

Short description of your local authority (town, city or region)

Include here some basic information about your local authority, its history, economy and population, in particular those aspects of relevance to diversity and inclusion. Specifically, it would be of interest to establish a picture of: the challenges faced by the local authority, such as levels of economic prosperity or infrastructural barriers to accessibility etc.; and the diversity of the local authority population and recent changes in this regard, such as the arrival of a significant number of migrants,

or ageing of the population, etc. It would be useful to note any particular barriers in the local or national context that hinder your initiatives on any specific ground of discrimination.

B/ NATURE AND SCOPE OF THE INITIATIVES

Please identify key diversity and inclusion initiatives you have undertaken or are undertaking, addressing the full range of these. These initiatives could be to: enhance the situation¹ and experience² of specific groups exposed to discrimination (on the grounds of sex, racial or ethnic origin, religion or belief, disability, age and/or LGBTIQ identity); and/or address the particular needs³ of these groups.

Where possible, these initiatives should demonstrate a comprehensive approach across the grounds of discrimination, and, within this, an intersectional approach. The initiatives should identify and pursue an ambitious vision for change in the approach to diversity and inclusion pursued by your local authority.

For each key initiative, include brief detail on:

- its aims, objectives, and strands of action;
- stakeholders involved and beneficiaries targeted;
- resources allocated and committed;
- all policy fields covered; and
- the start date and end date.

Where appropriate, be explicit if your initiatives are targeted at specific groups exposed to discrimination (based on grounds of sex, racial or ethnic origin, religion or belief, disability, age and/or LGBTIQ identity), including any focus on the intersections between these grounds of discrimination. It would be useful to note any particular strategy that your initiatives are connected with.

The initiatives should demonstrate a coherent approach to diversity and inclusion across a range of policy fields by the local authority, alongside an ambitious vision for addressing diversity and inclusion issues as an employer, within the local authority workforce.

Section B of the application form may be used for promotional purposes (publication on the Award website, in a brochure, etc.), so please be as clear as possible in your description.
